PROFILE SUMMARY

A technically astute front-end developer with experience in managing and configuring ReactJs. A proven track record of hands-on experience in HTML, CSS, and JavaScript in analysing, designing and implementing solutions to drive positive changes that optimise business processes.

WORK EXPERIENCE

Hotels.ng – Intern

October 2022 – December 2022

- Collaborated with other teammates which improved my ability to work effectively in a team.
- Consumed APIs and built responsive websites with 100% authentication and validation.

PERSONAL PROJECTS

Comfy Slot E-Commerce – Developer

January 2023

- Built with React js.
- Worked with Auth0 and this serves in adding authentication and authorization to our website.
- Worked with stripejs Api and it was used to tokenize customer's information and also collect payment details.
- I consumed APIs using axios JavaScript library.
